

The opinions expressed on this webinar are for educational and informational purposes only, and are not intended as a diagnosis, treatment or as a substitute for professional medical advice, diagnosis and treatment. Please consult a local physician or other health care professional for your specific health care and/or medical needs or concerns.

Webinar Invitation:

You are invited to attend an incredible webinar that explains the commonality of these two medical conditions and walk away with knowledge of how to prevent or reverse these illnesses.

Date: March 26, 2020

Time: 7:30 pm

Where: Zoom meeting

Presented by: Dr. Gerald H. Smith

Topic: Coronavirus to Cancer

PR: *Remove the “Splinters” and Watch the Body Heal - ghsdoc.com*

Tesla Energy Card - New and innovative delivery system - Teslaenergy-tec.com

Zinc Plus: our new product to boost the immune system - Teslaenergy-tec.com

Origin of the virus:

1. The early days of China’s coronavirus outbreak were cover-up.
2. The Chinese discovered the coronavirus in Dec. 2019 and found it to be highly contagious; the laboratory was ordered to stop testing, destroy proof of the virus and suppress the media. They allowed it to spread.
3. If the Chinese authorities would have acted three weeks earlier, the worldwide spread would have been reduced by 95%.
4. The Chinese lied to the media saying there was no human to human transmission. The Chinese also threatened to wreak havoc with our drug supply.
5. The countries that closed their borders (Hungary, Poland, Israel, and Russia), had the lowest number of cases.

Background Facts regarding the coronavirus:

- US patent (10.130.701 B2)- Nov. 20, 2018
- Bickerton et al. The research was funded and patented by Wellcome Trust, then sold to Glaxo-Smith-Kline, Bill & Melinda Gates Foundation, DARPA, DEFRA (UK), WHO, European Commission via the Pirbright Institute (UK).
- **A European company received a patent (AP3172319B1) in 2019**

- *The coronavirus and the vaccine already existed.*

Facts about the Coronavirus:

- All viruses are filterable bacteria.
- There is a corresponding bacteria for every virus.
- Mycoplasma is the corresponding bacteria for the coronavirus.
- Mycoplasmas are the smallest free-living organisms known. They have no cell wall only a membrane and therefore are very resistant to antibiotics.
- Chloroquine and Zithromax Azithromycin have been used with some success, however both have serious side effects.
- Adverse reactions included:
- **Cardiovascular:** Palpitations and chest pain.
- **Gastrointestinal:** indigestion, flatulence, vomiting, dark sticky feces, jaundice.
- **Genitourinary:** yeast infection, vaginitis, and nephritis.
- **Nervous System:** Dizziness, headache, vertigo, and insomnia.
- **General:** Fatigue.
- **Allergic:** Rash, photosensitivity, and edema just beneath the skin.

The mechanism to destroy the virus

- *Zinc deficiency affects up to two billion people worldwide.* Its multiple systemic effects include growth retardation, weight loss, infertility, mental and emotional disorders, **impaired immune function**, skin lesions and hair loss.
- Zinc-deficient soils are widespread, and may contribute to zinc deficiency in humans, especially where they subsist on cereal-based diets which are rich in a zinc-chelating phytate.
- It has been recognized that **free zinc is an unexpectedly potent cellular toxin.**

Note: *Zinc orotate has the ability to enter the Mycoplasma and destroy the virus.*

CDC Website: Testing for the Coronavirus

The 2019-coronal virus RNA is generally detectable in upper and lower respiratory specimens during infection. Positive results are indicative of active infection with 2019- novel coronal virus but **do not rule out bacterial infection or co-infection with other viruses. The agent detected may not be the definite cause of disease. If the virus mutates in the target region, Coronavirus may not be detected or may be detected less predictably. Basically the test is worthless.**

Environmental factors:

- Electrification of the earth: any time you expose biological systems to a new electromagnetic field you poison some, you kill others, and the rest go into some type of suspended animation (adaptation).
 - a. 1918 - Introduction of radio waves around the world. Result: Pandemic Spanish flu killed an estimated 20 to 50 million people worldwide; 675,000 Americans died. Spain was hit the hardest; of interest was the fact that Spain was not subject to the wartime news blackouts that affected other European countries. They were exposed to more radio transmissions.
 - b. 1968 - First time we surrounded the earth with satellites that emitted radioactive frequencies - Within 6 months we had a viral pandemic: Hong Kong Flu that killed an estimated 1 to 4 million people worldwide.
 - c. One of the reasons why viruses spread so quickly around the earth is because of the electrification of our planet. We now have 20,000 radiation emitting satellites surrounding our globe. This electromagnetic field is NOT compatible with health. According to reports, a total of 40,000 satellites will be placed in orbit within the next few years.
 - d. 2020 - Coronavirus pandemic: The first city to be blanketed with 5G technology was Huan, China. The coronavirus appeared several months afterward. Any guesses as to the potential cause.

Note: 60 Gigahertz millimeter radiation waves from 5G towers create the same distress symptoms as the coronavirus! Hunan was the first city in China to have a complete 5G system operational several months before the coronavirus appeared.

- Wi-fi in all the schools and homes, cell phone towers, TATRA emergency band frequencies.
- Chemtrails being sprayed over all the NATO countries; radioactive aluminum, strontium, and barium, plus Klebsiella pneumoniae and **mycoplasma pneumoniae**. Look up Ted L. Gunderson former FBI Chief on Youtube.
- Chlorinated and fluorinated water: suppresses thyroid function.
- Brominated bleaching of flour products also suppresses the thyroid.

- Glyphosate (Monsanto) RoundUp) scourge of herbicides, insecticides, and pesticides. <https://www.youtube.com/watch?v=AHZg--xbLoQ>
- Sick building syndrome: degassing of synthetic rug fibers, paints, plastics, and moldy ventilation systems.

Nutritional Factors:

- Depleted soils. 1929 Congress commissioned a study to test our soils. Results: our soils were depleted in vitamins and minerals.
- Genetically modified foods (corn, soy, beets, tomatoes, salmon).
- Microwave cooking increases free radicals in the food.
- Processed foods with high fructose corn syrup, artificial sweeteners, and little to no nutritional value.
- Synthetic vitamins in the health food stores.

Dental Factors:

- Root canal teeth: Thioethers, hydrogen sulfide, mercaptans plus deadly bacteria, fungi, and viruses
- Mercury fillings
- Resin fillings with bisphenol A (synthetic estrogen)
- Galvanic currents from dissimilar metals in the mouth
- Cavitations (residual infections in post extraction sites)
- malocclusions that stress the adrenal and thyroid glands and cause spinal misalignment
- Cranial distortions caused by malocclusions: stressing central and autonomic nervous systems

Medical Factors:

- Vaccinations with their toxic adjuvants (formaldehyde, Al, Hg, fetal tissue, peanut oil, polysorbital 80 (emulsifier, thickener, and stabilizer in foods - best avoided)
- Prescription drugs: distort body physiology, petroleum based toxic chemicals, and they do NOT fix the problem

Note: All of the above factors lower the vibrational level of the body:

58 Hz: Disease starts

55 Hz: colds and flu

42 Hz: cancer

Common Denominators in getting the Flu or Cancer:

1. Weakened immune system from the above mentioned issues.
2. Corrupted cell membranes from the adulterated oils in our diet especially the omega 6s (safflower, sunflower, walnut, and sesame oils).
3. Lacking organic unadulterated omega 6 oil in the cell membrane prevents the uptake of oxygen. Omega 6s act as a magnet pulling oxygen into the cell. When O₂ is reduced by 35% over time, cancer appears.
4. Processed foods and toxins lower your body's vibrational frequencies: 62 Hz to 70 Hz is the normal range for health. At 58 Hz disease starts. At 55 Hz colds and flu occur. At 42 Hz cancer occurs.

Note: As your frequency drops due to environmental and physiological factors, your immune system is compromised and opportunistic bacteria and viruses are able to wreak havoc on your body—making you more susceptible to disease.

Note: Do NOT take aspirin or any other NSAID drug for fever. NSAIDs will increase the recuperation period 2X and increase complications 3.5X.

Maintaining a High Vibrational Frequency

- You must function at a high vibrational level to attain peak health and wellness for your mind, body, and soul.
- Exposing our body to low vibrations, processed foods, chemicals, drugs, wi-fi, cell phones, 5G, negative people or depressing movies will have a direct effect on you.
- We can actively make changes to raise or maintain a high vibration.
- Start by cutting out toxic, low-vibrational people from your life that make you or your thoughts turn negative.

- Think positive! Our thoughts are vibrations too, we can change our frequency by reframing our perception into something more positive and of a higher vibration. Positive thoughts can raise it by 10 MHz and negative ones can lower your frequency by 12 MHz.
- Eating organic foods and herbs, as they have a higher vibrational frequency.
- Raw juices.
- Essential oils also contain frequencies that are several times greater than the frequencies of herbs and foods, and are a great tool for raising your vibration.

Note: Drinking a cup of coffee will lower your vibrational frequencies for three days. You can counteract this by using essential oils, thieves (150 MHz), lavender (118 MHz), sandalwood (96 MHz), Helichrysum 181(MHz), rose (320 MHz), frankincense (147 MHz), myrrh (105 MHz), juniper (96 MHz), Idaho Blue Spruce (580 MHz - supports healthy testosterone levels)

- Having healing crystals in and around your energy field is another way to raise your vibration.
- Theraphi treatments will raise your vibrational frequencies.
- Turn off wi-fi at home; go hard wired. Don't wear fitbit watches.

Healing Sequencing of Nutrients:

1. Clean out your liver: glutathione, curcumin, B-complex, SOD
2. Open up the avenues of excretion: 9 homeopathic remedies - Energetix: Lymph Tone I, II, III, Drainage Tone; Desbio: Liver, GI, Intestine, kidney, Lymphatic drainage.
3. Heavy metals: Platinum Plus (Dr. Brice Vickory), Metal Chord (Energetix), IMD (Boyd Haley, PhD), Metal-Free (Dr. David Minkoff). Animal protein provides a higher concentration of methionine, which chelates heavy metals.
4. Detox herbicides: Glyphosate (Isopathic Phenolic Rings (Energetix)
5. Chemicals: Chem Chord, Dental Chord, Agri-Chord
6. Infections: depends on what is diagnosed
7. Vaccines/Lyme: Vac Chord, Vax, Lyme Plus

Cancer: Is NOT a disease but a survival mechanism!

1. Primary cause is hypoxia or low oxygen level
2. Contributory factors:
 - a. Adulterated omega 6 oils (corn, soy, safflower, sunflower, walnut, and sesame).
 - b. Heavy metals: 6 most common are Hg, As, Al, Ni, Pb, and Cd.
 - c. Herbicides especially glyphosate; insecticides, and pesticides.
 - d. Electromagnetic frequencies.
 - e. Food preservatives: benzoic acid + ascorbic acid = benzene.
 - f. Fluoride, chloride, and bromine: all suppress the thyroid.
 - g. Chemicals: Dioxin, PCBs, formaldehyde.
 - h. Artificial sweeteners: aspartame
 - i. Toxic dentistry: root canal teeth, mercury fillings, toxic resin fillings, fluoride, improper restoration of teeth (distress into the entire nervous system; instability of spine, pelvis, sacrum)
 - j. Parasites: 50% of population has parasites: guard, amoeba, cryptosporidium, pinworms and others.
 - k. Stealth organisms: mycoplasmas (coronavirus), lyme, cytomegalovirus, Epstein Barr virus
 - l. Chronic inflammation: causes fibrosis.
 - m. Vaccines and their adjuvants: Aluminum, polysorbital 80, thimerosal, formaldehyde, fetal tissue, peanut oil, antibiotics and more. Read the book, *Just Say No to Vaccines* by Dr. Sherri Tenpenny.
3. Resolving cancer: Three prong approach
 - a. Define and remove the “splinters” by detoxing the body.
 - b. Cleanse the intestines, restore the integrity of the intestinal wall, and rebuild the intestinal flora.
 - c. Regenerate the body: Repair the cell membranes, supply high quality antioxidants and nutrients to repair the tissues and organs and flood the body with oxygen.

Top 13 Nutritional Support:

1. Clinician's Preference: Omega 6/Omega 3 in a 11:1 ratio; restore the cell membrane, heal the brain, dissolve out artery plaque, and lower cholesterol.
2. Zymessence: Best systemic enzyme on this planet.
3. Kaqun Drops: One of the best probiotics on the market
4. Whole Body Collagen: Designs for Health
5. Curcumin: shortens the telomeres of cancer cells and lengthens those of healthy cells.
6. Cordyceps: Dr. Ngui; best modulator on this planet. Cures cancer in 65% of cases
 - a. Anti-inflammatory
 - b. Anti-tumor: Prevents the rapid replication of mutated cells
 - c. Increases oxygen utilization in the cell
 - d. Increases ATP (adenosin triphosphate); reduces fatigue
 - e. Increases stamina
 - f. Modulates the immune system
 - g. Stimulates stem cells for repair of all tissues
 - h. Cordycepin: active agent; does not affect healthy cells
 - i. Beneficial in: heart disease, atherosclerosis, liver disease, sexual dysfunction, kidney disease, respiratory disease, immune disease, and chronic fatigue.
7. AMLA-C; 3000 mg per day; prevent coronavirus
8. D₃: Premier Research: 10 drops a day
9. MSM: Designs for Health
10. Pure Synergy: best all organic supplement
11. Indiumease: one drop on tongue for each 40 lbs.
12. Food Grade Diatomaceous Earth: 1 tbs in 12 ounces water am for 90 days
13. Ivermectin: 1cc for every 100 lbs; same dose 2 weeks later. Kills all parasites.
14. Zeolite: made from ground up volcanic rock; prevents viruses from multiplying.

6 Best Modalities:

1. Theraphi; scalar energy wave with 18 healing frequencies
 - a. Repairs DNA
 - b. Disassembles pathogens, chemicals, heavy metals electronically

- c. Stimulates stems cells for repair
2. Ozone: kills all pathogens, and burns up toxins.
3. CyberScan; comprehensive diagnostic system
4. Tesla Energy Card: boosts the immune system
5. Rife generator; kills a laundry list of pathogens
6. Biopton; increases microcirculation by 48%

PR: *Remove the “Splinters” and Watch the Body Heal* - ghsdoc.com

Tesla Energy Card - New and innovative delivery system - teslaenergy-tec.com
icnr.com for articles on health and over 150 case studies.

Agendas: 1) sensitize world population to Medical Marshall Law; 2) allows China to buy up major stocks in various countries and domestically to rule the world economically.

15 - 20 minutes Q & A

1. Does the flu shot increase the risk for coronavirus infection? YES!

Ans. The study concluded “Vaccine derived virus interference was significantly associated with coronavirus.”¹

2. Could a new flu vaccine be partly responsible for the COVID-19 mortality rate in Italy? YES!

Ans. In September 2019, Italy rolled out an entirely new type of influenza vaccine. This vaccine called VIQCC is different than others. Most available influenza vaccines are produced in embryonated chicken eggs. VIQCC, however, is produced from cultured animal cells rather than eggs and has more of a “boost” to the immune system as a result. VIQCC also contains four types of viruses – 2 type A viruses (H1N1 and H3N2) and 2 type B viruses.² It looks like this “super” vaccine impacted the immune system in such a way to increase coronavirus infection through virus interference that set the stage for what happened in Italy.

3. Are there certain medications like blood pressure drugs and proton pump inhibitors that increase risk for infection and mortality? YES

Ans. The body responds to ACE inhibitor drugs used in the treatment of high blood pressure by increasing the number of ACE-2 receptors on cells. With an increase in ACE-2 receptors there are more entry points (doors) that the SAR-CoV-2 virus can enter the cell.

The secondary route of infection for many respiratory tract viruses like SAR-CoV-2 is through the gastrointestinal tract. Interestingly, this ability of a coronavirus to travel from the gut to the lungs was confirmed with Middle East respiratory syndrome coronavirus (MERS-CoV) by increasing the gastrointestinal replication of the virus by infecting animals with viruses orally while at the same time giving them an acid-blocking drug known as a proton pump inhibitor. This class of drugs includes Nexium, Prilosec, Protonix, Prevacid, and Aciphex.

So, to answer to the obvious question “Does taking a proton pump inhibitor increase the risk for COVID-10 that can attack the lungs by increasing the secondary route of access to the lungs.” The answer is YES!

4. Is it chloroquine or is it zinc that is working as a possible aid in treating COVID-19? A strong case can be made for zinc!

Ans. The anti-malarial drug chloroquine is making a lot of noise as a possible treatment. The way that it primarily works is acting as a zinc “ionophore.” An ionophore is a special cell membrane portal that allows for an ion to enter the cell. In an ionic state, zinc is a known inhibitor of viral replicase. This enzyme is responsible for the viral replicating its genetic code into a cell. By blocking replicase, the virus cannot reproduce.

5. Can plant polyphenols and flavonoids act to increase the antiviral effects of zinc? YES!

Ans. Especially the flavonoid quercetin. Flavonoids are a group of plant pigments largely responsible for the colors of many fruits and flowers. As a class of compounds, flavonoids have been referred to as “nature’s biologic response modifiers” because of their ability to modify the body’s reaction to viruses, allergens, and carcinogens. Quercetin is generally the most powerful of the flavonoids in cellular studies, but it is poorly absorbed. ***Quercetin is a zinc ionophore that is about 35% as strong as chloroquine***, but unlike this drug that can have serious side effects, quercetin is completely safe.
